

Kohan Kogyo Co., Ltd. 90th Anniversary (Commemorative Logo Established)

Thanks to everyone's support, Kohan Kogyo celebrated its 90th anniversary on May 5, 2024.

We express our heartfelt gratitude to all who have supported us thus far, and we are dedicated to sustainable growth and ongoing contributions to our local community.

To commemorate this milestone, we have created a logo mark featuring four iconic elements representing Kohan Kogyo's founding businesses.

Machinery Business

We are envisioning the gear of a product created from unique mechanical technology.

Electronics Materials Business

We are envisioning the hard disk aluminum board made with advanced plating technology.

Hard Materials Business

We are envisioning the industrial machine part using the Only One material, "KH" hard alloy.

Steel Strap Business

We are envisioning the steel strap used for banding.
