

Specialized Exhibition for the Manufacturing Industry: Visit us at the 36th Manufacturing World <Tokyo>

We will be exhibiting at “Manufacturing World” held at Tokyo Big Sight, as a part of “Mechanical Components & Technology (M-Tech)”. We look forward to seeing you at our booth.

◆ Outline of the event

Date	June 19 - 21, 2024	10:00~18:00 *Last day ends at 17:00
Place	Tokyo Big Sight	East Hall, South Hall
Admission fee	Free (Pre-registration required)	Pre-registration form
Booth No:	East 6 Hall//E58-37	Venue Map

Details We will be exhibiting our heavy load transport system, in-house developed hard alloy materials with excellent corrosion and wear resistance, precision molds with superior cooling effects using 3D molding technology, and surface coatings with outstanding slipperiness and wear resistance.

Product Categories : IT, DX, 3D Printers

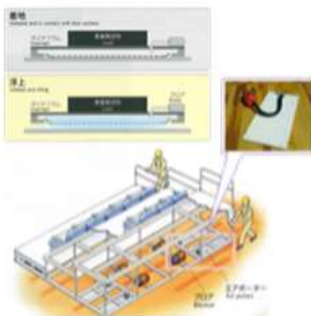

Materials, Components

Product Categories : Components, Manufacturing Technology, EMS

Hydraulic Equipment, Pumps Mechanical Parts Surface Treatment Materials

Product Categories : Facilities, Measuring, Machines, Tools

Energy Saving Products Factory Facilities & Equipment Other Machinery
Automation Products/Technology

Heavy Load Transport
System
Air Bearing/ Air Porter

Molds and Machine Parts
Using 3D Modeling and
Surface Coating

KH alloys that require no
lubrication and offer
excellent heat, wear, and
corrosion resistance
