

Product code	Surface finish	Mechanical properties			Remarks
		Minimum tensile strength (N/mm ²)	Minimum elongation (%)	Target distance (mm)	
BHE2	White	686 (70kg/mm ²)	2.0	50	Our standard product with high tensile strength, suitable for packages requiring high tightening force.
	Bluing				
	Color				
	Galvalume				
BHF	White	686 (70kg/mm ²)	8.0	50	High tensile strength and elongation, suitable for heavy objects.
	Bluing				
	Color				
BHF2	Bluing	785 (80kg/mm ²)	15.0	50	A superior strap with high tensile strength and elongation created by our proprietary heat treatment technology.
BHG	Bluing	755 (77kg/mm ²)	6.0	50	Extremely high tensile strength and elongation, suitable for compressed packing of heavy objects.
	Color				
BHG2	Bluing	883 (90kg/mm ²)	13.0	50	A strap with high tensile strength and elongation created by our proprietary heat treatment technology, suitable for compressed packing of heavy objects.
Lashing	Color: Yellow	1,058 (108kg/mm ²)	7.0	100	A strap for marine lashing with high tensile strength created by our proprietary heat treatment technology.
