

■ Performance table

Air motor type	Operating air pressure (Mpa)	Output torque (N-m)	Rotational speed (rpm)	Air consumption (NL/min)
LPC35	0.3	15	84	210
	0.4	20	98	250
	0.5	25	102	310
LPC60	0.3	23	70	240
	0.4	29	84	320
	0.5	37	88	390
HPC35	0.3	29	42	210
	0.4	39	49	250
HPC60	0.3	36	35	240
	0.4	49	42	320

Note: The rotational speed and air consumption values shown above apply under the loaded condition when the actuator is installed on a valve.
