

Air porter in various sizes

Choose an air porter according to the dimensions of the mounting frame and the weight of the object to be transported.

Contact us and we will recommend the optimum air porter configuration.

Sample specifications are shown below.

Capacity (kN)	Model No.	Mounting plate (reference only; specified by customers) Width × Length (mm)	Lift height (F) (mm)	Number of blowers required (100 or 200V)
3.0	450×1,050	510×1,050	35 to 60	1 blower per pad
3.5	614×1,070	620×1,100	35 to 55	1 blower per pad
6.0	830×1,024	860×1,030	20 to 40	1 blower per pad
8.0	850×1,250	880×1,280	15 to 35	1 blower per pad
